

# L.I. To create an on-screen presentation

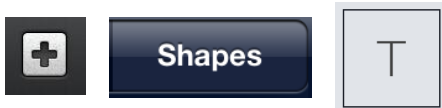

① Start a **new Keynote** presentation

② **Add content** onto slides:

## Good

✓ **Text boxes**

✓ **Text style** 

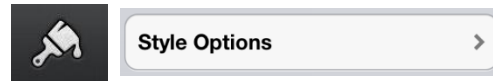

• Bullets

✓  **images**  
*rotate/re-size*

✓ **Background colour**

## Great

✓ Put **borders** around images

✓ **Slide transitions** 

✓ **Add animations**

## Super

✓ Change **animation style** or *when to start* 

✓ Create a **consistent design** (colour scheme)
